## Senior Group Lead Project Portfolio Management (PPM)

Root

### Your tasks

In this high influential position you lead the (senior) project managers and the PMO unit. In this context you are responsible for the definition, planning and supervision of the project portfolio including projects for product development, pipeline extension, product maintenance and basic research. You are further accountable for the reporting of portfolio status into the upper management, the moderation of the monthly portfolio steering committee as well as for the PPM associated processes – such as project management, medical device development, design controls and product risk management.

### Your qualifications

Beside your advanced education (e.g. bachelor, master, dipl. Ing.) in life science, pharma technology or equivalent, you are experienced in multi-project or portfolio management as well as in medical device development, design controls and product risk management. You are well versed in internal and external audits. As a person with a strong self-starter pioneering spirit, willingness to shape the own area of responsibility you are resilient and have strong executer skills. You have high interdisciplinary communication-skills; fluent in English (written and spoken) and German of advantage.

**Geistlich Pharma is a family-run Swiss company and a longstanding global leader in regenerative dentistry.** We have a long tradition of pioneering attitudes that place the focus on employees. These employees are dedicated to the spirit that drives our company to excel: a passion for regeneration.
